UNFINISHED BUSINESS

Case No. 16569

Action Requested:

Variance of the required setback from the centerline of East 35th Street - SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS - Use Unit 6, located 4148 East 35th Street.

Presentation:

The applicant, Donald Arney, 4148 East 35th Street, submitted a revised plan (Exhibit A-1) and stated that he has discussed the proposed carport with his neighbors and has addressed their concerns. He pointed out that the carport will have a pitched roof and has been lowered to 8'. He stated that it was initially his intent to park his camper under the carport, but it will be moved to the back yard. A photograph (Exhibit A-3) was submitted.

Comments and Questions:

In response to Mr. Bolzle, the applicant stated that the submitted plot plan has the correct dimensions.

Protestants:

Ms. Russell stated that two letters of protest (Exhibit A-2) have been received from area residents.

Mary Ann Summerfield, 4137 East 34th Street, stated that her main objection was to the height of the carport, and that she does not oppose the construction of an 8' carport.
Case No. 16569 (continued)

Board Action:

On MOTION of BOLZLE, the Board voted 4-0-0 (Bolzle, Chappelle, Doverspike, T. White, "aye"; no "nays"; no "abstentions"; S. White, "absent") to APPROVE a Variance of the required setback from the centerline of East 35th Street - SECTION 403. BULK AND AREA REQUIREMENTS IN THE RESIDENTIAL DISTRICTS - Use Unit 6; per plan submitted, with the height and design, including width and depth, being as designated on the building plans; finding that there are other carports in the neighborhood; and finding that most dwellings in the area were constructed prior to the adoption of the current Zoning Code and do not comply with the current setback requirements; on the following described property:

Lot 1, Block 5, Walter Foster Addition, City of Tulsa, Tulsa County, Oklahoma.

Case No. 16591

Action Requested:

Special Exception to reduce the number of required parking spaces or to permit parking on a lot other than the lot containing the principal use - SECTION 1608.A.13 SPECIAL EXCEPTION - Use Unit 12a, located 3016 East 15th Street.

Presentation:

The applicant, Lynn Williams, 111 West 5th Street, Suite 510, submitted a plot plan (Exhibit B-1) and explained that the building is located on Lot 10 and the original plan was to have parking on the two abutting lots.

Comments and Questions:

There was discussion as to the notification of all property owners within 300' of Lot 10, and it was determined that all property owners were properly notified of the hearing.

Mr. Williams stated that the interior square footage for serving customers has been reduced and the use now requires 10 spaces, which can be provided if the Tap Room is permitted to utilize the parking area behind the vacant building next door. Mr. Williams stated that the reduction in the size of the business would reduce customers and alleviate the parking problem in the neighborhood.

Additional Comments:

In response to Mr. Doverspike, Mr. Jackere explained that the applicant is requesting that parking be permitted on a lot other than the lot containing the principal use.

Mr. Doverspike asked if the dead space in the rear portion of the building can be accessed from the alley, and the applicant stated that deliveries will be made in the alley. He added that the space in the back portion of the building will be used for storage, but patrons will not be permitted in this area.

In response to Mr. Doverspike, the applicant stated that all customers will park at the rear of the building and enter from the front.
Case No. 16591 (continued)

Mr. Bolzle inquired as to the distance from the back wall of the building to the lot line of the residential district, and Mr. Williams stated that the distance is approximately 30'.

Mr. Bolzle asked Mr. Williams if Lots 8, 9 and 11 are owned by his client, and he replied that they have a different owner. Mr. Bolzle inquired if the parking spaces behind the vacant buildings next door would be exclusively devoted to parking for the Tap Room, and the applicant replied that these spaces are needed to comply with the parking requirement for the business.

Mr. Jackere asked if there is a use in the building to the east, and Mr. Williams replied that it is vacant. Mr. Jackere advised that, if the parking for that building is used for the Tap Room, the next tenant would not have sufficient parking. The applicant stated that his client is amenable to renting the building next door in order to use the parking spaces.

Mr. Williams stated that his client had intended to purchase the abutting property for parking purposes; however, it was sold to another buyer.

Protestants:

Ms. Russell informed that the Board has received photographs (Exhibit B-4) and numerous letters of opposition (Exhibit B-3) to the application.

Terry O'Donnell, 1737 South Delaware Place, stated that he is representing the Florence Park Neighborhood Association. He informed that the Tap Room has continually caused problems for the surrounding neighborhood, with incidents of traffic violations, vandalism, theft, littering and public drunkenness being attributed to the bar patrons. Mr. O'Donnell pointed out that the proximity of the bar to the residential neighborhood and insufficient parking makes the use incompatible with the area.

Diane Bloom, 1519 South Florence Avenue, stated that confrontations between residents of the neighborhood are becoming more and more numerous. She pointed out that cars parked on the street often block her driveway or sometimes pull into the driveway. Ms. Bloom stated that the owners of the cars become belligerent when asked to move the vehicles. She stated that the neighborhood has been subjected to numerous problems because of the bar, and the owner has often had to pay for damages to residences and cars.

The resident at 1727 South Gary Place stated that the bar is not compatible with the residential neighborhood, and asked the Board to deny the application.

Mr. Gardner advised that the parking of delivery trucks on the sidewalk is a problem for the neighborhood. He pointed out that the rear door has always been used as a public entrance, and this has also created a noise problem for the nearby residents.

Applicant's Rebuttal:

Mr. Williams stated that delivery trucks can use the alley to park and unload merchandise. The applicant stated that the back door will not be for public use and all patrons will have to use the front entrance. Mr. Williams stated that other business, such as those in the Cherry Street area, have been approved without sufficient required parking, and suggested that bars with similar parking problems may be singled out for denial.

03.22.94:653(3)
Case No. 16591 (continued)

Additional Comments:
Mr. Chappelle remarked that approval of the special exception regarding parking would not alleviate all neighborhood problems arising from the proximity of the bar to the residences. He pointed out that the Board, in order to approve the application, would have to make a finding that the use did not have a negative impact on the neighborhood.

Board Action:
On MOTION of BOLZLE, the Board voted 4-0-0 (Bolzle, Chappelle, Doverspike, T. White, "aye"); no "nays"; no "abstentions"; S. White, "absent") to DENY a Special Exception to reduce the number of required parking spaces or to permit parking on a lot other than the lot containing the principal use - SECTION 1608.A.13 SPECIAL EXCEPTION - Use Unit 12a; finding that approval of the requests would be detrimental to the neighborhood, because of the proximity of the parking area to the residences, and that several of the proposed parking spaces are devoted to other businesses; on the following described property:

Lots 8 and 9, Block 1, Avondale Addition, City of Tulsa, Tulsa County, Oklahoma.

Case No. 16594

Action Requested:
Special Exception to permit a produce tent and Christmas tree sales for 150 days for 1994 and 1995 - Use Unit 2, located 6130 East 81st Street.

Comments and Questions:
Mr. Gardner advised that the Planning Commission approved the use, subject to Board of Adjustment approval of the gravel parking area.

Presentation:
The applicant, Mark Rosenberger, 6609 East 54th Street, stated that the produce tent has a gravel parking area, and asked the Board to approve the temporary use.

Protestants:
None.

Protestants:
None.

Protestants:
None.

Case No. 16611

Action Requested:
Variance of the number of required parking spaces - SECTION 1212a.C. Off-Street Parking and Loading Requirements - Use Unit 12a, located 3415 South Peoria Avenue.

Comments and Questions:
Mr. Bolze advised that he will abstain from hearing Case No. 16611.

Presentation:
The applicant, C. B. Kerr Realty, 3314 East 51st Street, Suite 200A, was represented by Scott Sanditen, who submitted a packet (Exhibit F-4) containing architectural renderings, a layout and letters of support. Mr. Sanditen explained that the existing building is being renovated and an entertainment emporium is proposed, which will consist of billiard tables, shuffleboard tables, ping pong tables, dart alleys and video games. He informed that the proposed business will limit occupancy to 150 people, which is a significant reduction from that of the previous use (Ikon). Mr. Sanditen stated that he has met with the neighborhood concerning the proposed business, and many residents are supportive of the application (Exhibit F-2). He stated that approximately half of the floor area will be dedicated to billiards and pool, and a pool hall serving intoxicating or nonintoxicating beverages is defined in the Code as an adult entertainment establishment, which requires additional parking. Mr. Sanditen noted that the use would only be about two spaces short if the beverages were not sold. He stated that the bar area for the intended use will contain no more than 100 sq ft of the total floor area. The applicant pointed out that the building was constructed prior to the adoption of parking requirements and has limited parking. He noted that there is no way to acquire additional parking to comply with the current Zoning Code. Mr. Sanditen remarked that these requirements are too stringent for the proposed use at this location. The applicant stated that there is a point, between the commercial area and the residential neighborhood to the east, which parking has not crossed. Mr. Sanditen estimated that cutting the occupancy from 450 to 150 will reduce the number of cars visiting the site by 66%. The applicant stated that Mr. Jackere has advised him that the parking request can be heard as a special exception and not a variance. A list of development standards (Exhibit F-3) was submitted.

Comments and Questions:
There was discussion concerning a similar application previously filed on the subject property, and Mr. Sanditen stated that he did not consent to the filing of that application on his property. He informed that the previous application was for mostly pool tables, and the new request is for a variety of games.
Case No. 16611 (continued)

In response to Mr. Doverspike, Ms. Russell informed that the applicant has 26 available parking spaces and the proposed use requires 84 spaces under Use Unit 12a.

Mr. Doverspike asked Mr. Sanditen if the Blue Rose Cafe currently has rights to use his parking area, and he replied that he has no knowledge of such an agreement. Mr. Sanditen stated that he has not restricted the use of his parking lot, but will do so if the Board requires such action.

Mr. Doverspike inquired as to the days and hours of operation, and the applicant stated that the business will operate seven days each week, 10 a.m. to 12 midnight on weekdays and 10 a.m. to 2 a.m. on weekends. Mr. Sanditen requested that the weekday hours be extended to 2 a.m. if the market demands.

In reply to Mr. Doverspike, the applicant stated that the business will have four employees.

Protestants:

Pat Malloy, 1348 East 35th Street, submitted a petition of opposition (Exhibit F-1) and stated that he lives approximately one block from the proposed business. He noted that Brookside already has a major parking problem, and the applicant is requesting permission to increase this problem. He pointed out that Mr. Sanditen will have approximately 30% of the parking spaces required for the intended use. Mr. Malloy stated that the new business will attract the same type of clientele that visited Ikon, and the problem in the neighborhood will continue. He pointed out that Ikon was only open two nights each week and the intended use will be open seven nights.

Kathy Voight, 3145 South Rockford Drive, Planning District co-chair, noted that Ikon has been a major problem for the Brookside area during the last several years. Ms. Voight stated that a parking study is in progress in the area and she will not support or oppose the application.

Joyce Allen, 1330 East 33rd Street, voiced a concern with the lack of parking in the area, and noted that parking violators are not towed away. She stated that the encroachment of the business activity into the residential area is also a concern.

Applicant's Rebuttal:

Mr. Sanditen stated that the proposed use will basically cater to people that are already eating in the area. He noted that the business will operate according to the submitted development standards, if they are imposed by the Board. Mr. Sanditen stated that he is supportive of the shared parking concept, but will post no parking signs on his property if this restriction is imposed by the Board.

Mr. Jackere suggested that shared parking be permitted for six months and reviewed by the Board at the end of that time to determine the impact on the neighborhood.

Board Action:

On MOTION of CHAPPELLE, the Board voted 3-0-1 (Chappelle, Doverspike, T. White, "aye"; no "nays"; Bolzle, "abstaining"; S. White, "absent") to APPROVE a Special Exception to reduce the number of required parking spaces; and to CONTINUE the balance of the application to September 27, 1994 to determine the impact of shared parking on the neighborhood - SECTION 1212a.C. Off-Street Parking and Loading Requirements - Use Unit 12a; subject to a maximum occupancy of 150, with no age restriction; subject to the business being operated.

Action Requested:
Variance of the number of required parking spaces - SECTION 1215.C. Off-Street Parking and Loading Requirements - Use Unit 15, located 5544 South 104th East Avenue.

Presentation:
The applicant, Area Building Company, was represented by Terry Stowe, 8510-A East 41st Street, owner of the company. He submitted a plot plan (Exhibit G-1) and informed that he has contracted to construct a building for Mr. Iskander, who owns Technical Programming Services.

Mr. Iskander informed that his company deals in microfilming and laser printing for banks and other organizations. He stated that the company has 16 employees, with 10 working during the day, two in the afternoon and four in the evening.

Comments and Questions:
In response to Mr. Bolzle, Mr. Stowe stated that the 25,000 sq ft building will be constructed on a 2½-acre tract.

Mr. Bolzle asked why sufficient parking cannot be provided on the site, and Mr. Stowe stated that the use was initially classified as light industrial; however, it was later determined that the business should be under Use Unit 15. He stated that there is sufficient space for additional parking, but it is not needed for the business. Mt. Stowe stated that the plan reflects 68 parking spaces and asked that this amount be reduced to 30 spaces.

Mr. Gardner stated that it appears that there will be a combination of uses on the tract. He stated that the business will consist of office use, warehousing and manufacturing, and the building inspector apparently has determined it to be under Use Unit 15.

Protestants:
None.

Off-Street Parking and Loading Requirements** - Use Unit 15; per plan submitted; subject to no retail sales on the premises; finding a hardship demonstrated by the fact that the operation consists of three different uses, including warehousing, which requires little parking; and finding that there are only 16 employees and no retail sales; on the following described property:

Case No. 16623

Action Requested:

Variance to permit required off-street parking on a lot other than the lot containing the principal use, variance of the number of required off-street parking spaces, variance of the required parking aisle width, variance of the required setback from the centerline of abutting streets for parking, variance to modify or waive the screening requirement and a variance of the required setback from the centerline of abutting streets from 50' to 40' to permit outdoor customer seating - Use Unit 11/12, located 3401-11 South Peoria Avenue.

Presentation:

The applicant, 3511 Limited Partnership, 1325 East 35th Place, was represented by Steve Schuller, who submitted a plot plan (Exhibit L-1) and explained that the Brook Theater and the adjacent building will be renovated and used for restaurant, banking and office purposes. He informed that offices (approximately 2800 sq ft) are currently in the upper portion of the building, with separate access from that of the theater. Mr. Schuller stated that the one-story building to the south is also a part of the project. He noted that the architecture of the Brook Theater will be preserved and the restaurant will be located in the front portion of the building. Mr. Schuller explained that the lower level of the back portion of the theater will be opened up to permit the installation of a drive-thru motor bank for the banking facility next door. He noted that the theater and the bank building cover the major portion of the lots, and there is no space for parking on the site. Mr. Schuller stated that 69 off-site parking spaces are available, which is approximately 10 - 12 spaces short of the required number. He pointed out that the shortage is caused by the fact that the parking requirements are also calculated on the portion of the building that will serve as the drive-thru motor bank. Mr. Schuller stated that this area could be used for six additional parking spaces after banking hours. He informed that his client has a partial interest in another parking lot across the street, which would provide safe and convenient access for customers visiting the site. Mr. Schuller pointed out that the parking lot is zoned residential and requested that screening along 34th Street, between the two parking areas, be waived. He noted that an 8' screening fence is proposed between the use and the residences to the east. In regard to the required setback, Mr. Schuller advised that the building was constructed 50' from the centerline of the street, and requested that a 40' setback be approved in order to provide an area for outside seating. An area plan (Exhibit L-4) and a petition and letter of support (Exhibit L-2) were submitted.
Case No. 16623 (continued)

Interested Parties:

Cathy Voight, 3145 South Rockford Drive, requested that a fence tall enough to block headlight glare be installed between the parking area and the residence to the northeast.

Protestants:

Sybie Lambert, stated that she lives at 34th Street and Quincy Avenue, and is supportive of the project, but is concerned with parking in the neighborhood. She stated that visitors to her home have no place to park, and suggested that cul-de-sacs be installed on the residential streets to alleviate the parking problem. Ms. Lambert stated that the added activities will only aggravate the existing problem.

Robert Nichols, 111 West 5th Street, stated that he is representing Ann Stoepelwelth, who resides at 1334 East 34th Street. He advised that the property next door to his client's home is a part of the project in question. Mr. Nichols submitted a letter with conditions and photographs (Exhibit L-3) and requested that the proposed fence between Ms. Stoepelwelth's property and the parking lot be double-slatted and have a separation of grassy area to prevent vehicles from damaging the fence. Mr. Nichols requested that a temporary fence be erected during the demolition of the dwelling.

Applicant's Rebuttal:

Mr. Schuler stated that he is in agreement with all requests made by Mr. Nichols. He informed that there is a 5' area of landscaping proposed between the parking area and the fence.
